

Revacom is a global IT service provider, specialising in application change services. Our customers include many leading IT service providers who we relieve of the many complicated and complex tasks that software change brings with it. From generating software compatibility through packaging and virtualisation to integration testing, we offer the entire spectrum – with skill and reliability.

On the path to success: Founded in 2003, Revacom has grown spectacularly over recent years and now has over 90 employees. The company has its headquarters in Potsdam with other sites in Germany, Denmark, Great Britain, New Zealand and Switzerland. And, of course, there are our two nearshore units in the Ukraine.

To extend our international team, we are currently looking for a committed and experienced

Application Change Consultant (m/f)

In your function as application change consultant:

- You will independently handle consulting and project mandates and optimise our service offering.
- You will take on the responsibility for the conception of sophisticated application change mandates from our clients and develop solution approaches in the field of software management, Windows migration or Office migration.
- You can present your solutions confidently and comprehensibly at the management level of our clients and win new clients and projects.
- You will support new colleagues and clients as well as sales in winning new mandates.
- Your operational readiness, social skills and client orientation will contribute to the success of the company and play a role in actively developing the Revacom brand.

We offer an interesting and varied activity in our young and committed team and will be pleased if you can match the following criteria:

- A bachelor's or master's degree in business informatics (BI) or a comparable discipline.
- Several years of experience as a consultant in providing IT services to IT service providers.
- In-depth experience in the conception and implementation of complex IT architectures in the field of desktop management.
- Very good knowledge in the area of ICT infrastructure (Windows 7, application packaging, application & desktop virtualisation)
- Very good communicative and presentation skills in stylistically- confident German and very good English.

Your entrepreneurial thoughts and actions round off your profile. You work independently, yet you are an excellent team player. Your commitment is only exceeded by your own quality expectations from your work.

Take the opportunity of making a decisive mark upon our company. In our dynamic team, you will have the opportunity of broadening your practical experience, becoming involved in innovative task areas, and benefitting from further personal development.

For your commitment and performance, we offer an attractive package that is based upon performance, an employee-friendly social package, on-going personal and professional training, and a company culture that is aware of the significance of every single employee.

Should we have aroused your interest, then please send your detailed application with salary expectations to Anna Ponomarenko, telephone +49 (0) 331 97 99 18 0, a.ponomarenko@revacom.com.

We look forward to meeting you!
